

Stakeholder seminar 2 - Develop digital pedagogical competences of educators in DRR

Stakeholder Seminar 2 was organised by VGTU and was held as a hybrid event. Based on the stakeholder database prepared during the preparation stage, key stakeholders covering, policymakers; DRR educators; and academics were invited to take part in the seminar particularly, in Lithuania and other European regions. The multiplier event disseminated the findings of the O2 and O6 (mainly, and other outputs) to the key target audience. All the stakeholders directly benefited from the seminar as they act as project advocates, and hence will transfer the lessons learned to their colleagues and respective organisations.
